

RIB Theme-based Research Seminar: Theme 4 - Ethics and Sustainability

Understanding ESG data for your research

The Research Centre for ESG (CESG) and Research Institute for Business (RIB) are pleased to jointly organize a research seminar to introduce ESG data and its applications. Under the IDS funding (project #: UGC/IDS(R)14/21), the CESG acquired ESG related data such as MSCI, SynTao Green Finance, and RavenPack, and others. This seminar will introduce how these data can be used for research. Also, representatives from commercial data providers will introduce their data and be available for Q&A. We welcome academic and industry researchers who want to know more about ESG data and examples of how CESG employs these data to create useful ESG intelligence at firm level for further research.

To register: <https://forms.office.com/r/7bxxfuGrCf>
Registration deadline: 19 July (Wed), 2023
Physical seminar
(no online broadcasting)
